### **Carr, Vegetation Fire, Shasta County (Continued)**

#### **Critical Infrastructure**

- Redding Electric – Residents without power 650
- Pacific Gas & Electric – Residents without power 3,886 and 502 without gas
- Power Plant Operations:
  - Shasta, Keswick and Trinity power plants are back up and running. Trinity power plant is currently the sole source of electricity for the county. This is a temporary arrangement until the grid is checked and normal electrical distribution resumes. All operating power plants are being staffed 24/7. There is no threat or concern to infrastructure at this time. Additional updates will be provided as information becomes available.
  - Spring Creek Detention Dam: Spring Creek Dam impounds toxic seepage from the Iron Mountain Mine Superfund Cleanup Site upstream on Boulder Creek. The Iron Mountain Mine has a 7 million gallon waste impoundment that has plenty of storage capacity left with no concern about imminent releases from Iron Mountain. Spring Creek Detention Dam is nearly empty with most of its storage capacity available. Additionally, BOR has a large amount of water stored for dilution purposes should any waste enter the Sacramento River. There is no concern about either Iron Mountain Mine Superfund Cleanup Site or Spring Creek Detention Dam posing a threat to public safety, environment or water quality.
- Amtrak Service
  - The Coast Starlight trains which operates between Los Angeles and Seattle have been amended; northbound trains are operating Los Angeles to Sacramento only, and southbound trains are operating Seattle to Klamath Falls, OR only, no alternate transportation being provided.
- Iron Mountain Superfund Site
  - Iron Mountain is being addressed for restoration
  - Site is securing fuel for generators for tomorrow.
  - Private fire crew arriving today.
  - Coordinating power restoration crews with CUEA.
  - Concerned about fire status in area surrounding site.
  - Considering restarting treatment plant.
  - Sacramento River is currently not in danger from Acid Mine Drainage
- City of Redding – Water Treatment Plant
  - A potential threat was identified at the Clear Creek CSD water treatment plant due to surrounding fire. There is 1 full one-ton cylinder and 2 empty one-ton cylinders that contain chlorine gas.
  - Per Cal EPA, Clear Creek Community Services District inspected the site and the plant remains fully operational. Water quality remains good and remote communications have been re-established. There is no danger to the plant or chlorine tanks on site

# WEATHER SYNOPSIS BY REGION

## **NORTHERN CALIFORNIA**

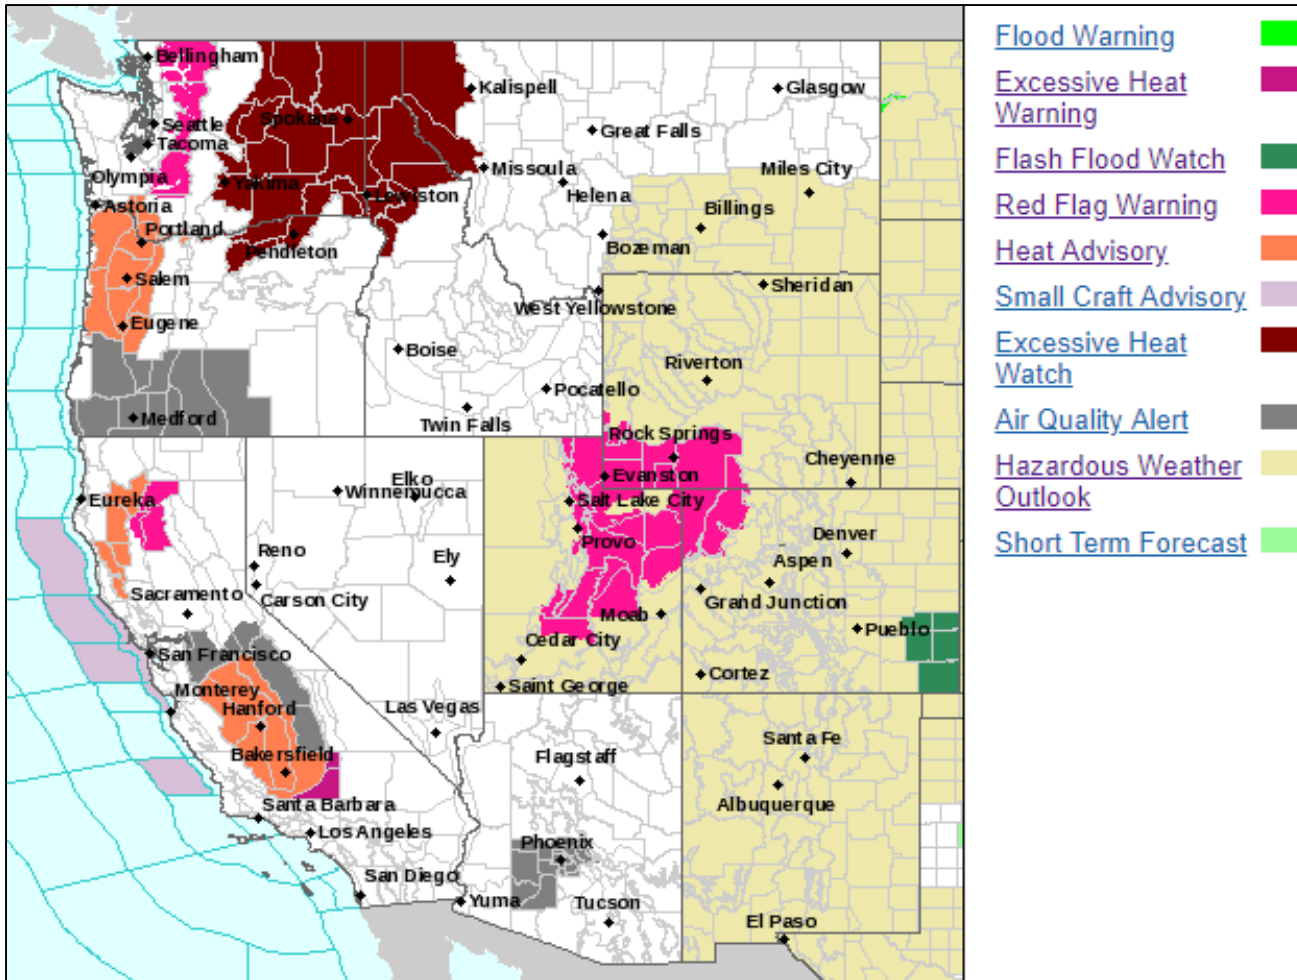

Dry with well above normal temperatures are forecast to continue through the weekend. Daytime humidities will be low, with areas of moderate to poor overnight recoveries. A Heat Advisory is in effect through this evening for portions of Trinity and Mendocino Counties and areas of the San Joaquin and Central Valleys. Locally gusty west to northwest wind in the Coastal Range afternoons and overnight, combined with very low humidity, will produce locally critical fire weather conditions. Critical Fire Weather conditions will continue in vicinity of the Carr Fire, near the City of Redding, and surrounding areas due to very hot and dry, plume dominated fire weather conditions. Some cooling expected early next week with an upward trend in humidity.

## **SOUTHERN CALIFORNIA**

Strong high pressure will continue to bring above normal temperatures across the region through next week. Night to morning low clouds and fog are expected to return to coastal areas and some valleys. Some monsoonal moisture will bring a slight chance of thunderstorms to the mountains through Tuesday. Elevated fire weather conditions are present for interior areas due to continued hot, dry and breezy conditions through Sunday with some improvement early next week. An Excessive Heat Warning remains in effect through this evening for the Kern County desert. A Heat Advisory remains in effect through Sunday for the San Joaquin Valley foothills and the Kern County mountains.
